CQI TA resources for all HMRF grantees

- ▶ Monthly CQI office hours
- ▶ CQI Best Practices Series
 - ▶ Tools and tips disseminated by the HMRF CQI Team
 - ▶ Most recent additions:
 - ▶ Implementation Team Agreement Worksheet
 - ▶ Grantee Implementation Team Sample Meeting Agenda

Today, we are going to talk about the two latest resources

- ▶ NIRN will describe the content of these resources
- ▶ The session will also provide practical examples of how organizations have used and benefited from these resources

Intended Results

At the end of this CQI Office Hours, you will be able to:

1. Understand how to form Implementation Team agreements to support CQI efforts
2. Understand how to structure Implementation Team meetings through agenda development

Implementation Team Agreements

IMPLEMENTATION TEAM AGREEMENT WORKSHEET

This worksheet provides a template that implementation teams can use to define core team agreements. Questions are provided in each section to guide the development of a team agreement with a focus on CQI.

Implementation teams are responsible for actively supporting implementation of the program. Team members should have detailed knowledge of the program. An implementation team is not an advisory group, but rather a team that is actively and regularly involved in program implementation.

COMPONENT	GUIDING QUESTIONS	RESPONSES AND NOTES
Vision	<ul style="list-style-type: none">• What is the overarching vision for the team? How does the vision emphasize CQI?• Does this align with the organization's vision?	
Goals and Objectives	<ul style="list-style-type: none">• What are the main purposes of the team related to CQI?• What are the team's goals for using data to inform decision-making and improvement?	
Roles, Responsibilities and Scope	<ul style="list-style-type: none">• Who participates and in what roles?• What are the team's responsibilities?• How do team members share accountability for CQI? (For example, who will be responsible for gathering data and information?)	

- Provides an overview of the team's vision, goals, roles, responsibilities, communication, resources available, authority, and deliverables
- Facilitates co-creation of agreements with team members to allow for mutual understanding and buy-in
- Supports mutual accountability and transparent expectations

Implementation Team Agreement Discussion Questions

1. What questions do you have about the Implementation Team Worksheet?
2. How do you see your Team using the worksheet?
3. What would you need to develop an effective CQI Implementation Team Agreement?

Implementation Teams: Where and When?

Teams should have standardized and consistent processes for meetings and communication at all stages of implementation.

Consistent meeting times, protocols

Protocols for bi-directional stakeholder communication

Defined quality improvement processes

Opportunities for team members to grow and learn

Implementation Team Agenda Sample Template

A core function of implementation teams is to routinely review, analyze, and synthesize data. The draft agenda template below provides a framework for how implementation teams can review and analyze data to inform decision-making using the W³ (What, So What, Now What?) strategy.¹ At each meeting, the team should review relevant data and revisit previous improvement actions and goals.

Objectives for Meeting:

- Use the W³ strategy to identify and prioritize implementation strengths and challenges from the data and to identify patterns and trends in the data;
- Discuss the data patterns and opportunities for improvement, co-create concrete strategies and responsibilities for improvement, and identify next steps to improve implementation.

Benefits for NYC ACS

- Reduced jargon and made CQI accessible for everyone
- Created shared language and protocols for CQI
- Integrated CQI processes into standard program monitoring. In turn, CQI became the way of work rather than something additional to do
- Created mutual accountability between ACS and service providers

It worked! Service providers demonstrated improvements on implementation indicators
